

Description

Pet4U is a pet adoption platform developed for the HOPE animal shelter. It streamlines the adoption process by managing pet profiles, handling user applications, and facilitating communication between the shelter and potential adopters. The system aims to enhance efficiency, improve record management, and provide a seamless adoption experience for all users.

Use the Pet4U system to adopt instead of buying.

- Simplify the adoption process.
- Easy to manage the pets.
- Customer can help to add a pet records.
- Help pets find their owners through NFC.
